

The electrode of choice...
for optimal bioimpedance performance

Electrodes

Bioimpedance Electrodes

ImpediMed Electrodes

Dimensions

L = 25 mm (0.98 in), W = 23 mm (0.90 in)

Quality

Designed and manufactured under an ISO 13485 medical device quality system
Electrodes are CE marked and FDA cleared
Accurate

Manufactured to ensure optimal performance for all bioimpedance application needs
Validated for consistent performance

Optimal performance

Designed to meet the demands of high frequency BIS
ISO 10993-1 compliant
Proprietary gel adhesive ensures optimal contact with skin
Electrode tab designed to facilitate attachment of alligator clips

Value for money

Resealable pack - prevents electrodes from drying out after opening package, for prolonged shelf-life and better reliability

User friendly

Designed for use on sensitive/elderly skin
Easy removal
Latex free
Solid gel requires minimal clean-up
Specially designed strain relief tab

ImpediMed Electrodes: designed with the patient in mind

ImpediMed's electrodes are manufactured under an ISO 13485 medical device quality system and offer optimal performance for bioimpedance analysis. The electrodes are designed with the patient in mind.

Electrodes

- Resealable packaging reduces wastage of unused electrodes
- Manufactured under an ISO 13485 medical device quality system
- Proven performance for BIA and BIS
- Designed for use on sensitive/elderly skin
- Electrode tab designed to facilitate attachment of alligator clips
- Available in boxes of 100 or 1000

ImpediMed Electrodes: optimal performance

ImpediMed's electrodes are designed to the highest standards and optimised for BIA and BIS requirements. The tab on the side of each electrode provides easy attachment of alligator clips while the proprietary gel adhesive ensures optimal contact with skin and ease of removal.

ImpediMed Electrodes: user friendly

ImpediMed's electrodes are easy to apply and the solid gel requires minimal clean-up. This makes them ideal to use on sensitive and elderly skins.

Ordering information ImpediMed Electrodes - Box of 100 (Catalogue # IUOGELTD)
ImpediMed Electrodes - Box of 1000 (Catalogue # IUOGELTC)
