SOZO APP Quick Start Guide

1

Sign In

1. Sign into SOZOapp as a clinician

Username is your email address created by your MySOZO Administrator.

Patient List

- 1. Provides access to a list of patients in your MySOZO database
- 2. Allows searching by Last/First name, DOB, sex, MRN and Last assessment date
- Provides access to individual patient data, by selecting a patient in the patient list

Settings

Patients

Patient Dashboard

3

Patient dashboard will give access to:

- 1. Take a new measurement
- All measurements taken for the patient along with information about the measurement such as baselines and tags
- 3. Patient profile
- 4. Patient notes

SOZO APP Quick Start Guide

Profile

Patient profile will give access to:

- 1. Demographics
- 2. Assessment types available
- 3. Patient groups

Notes

- 1. Provides access to a list of notes assigned to the selected patient
- 2. Ability to create new note
- 3. Ability to edit or delete an existing note

<u>Please note:</u> A maximum of 10 notes is allowed per patient. To add a new note, first delete an existing note.

Results

- 1. Provides access to measurement outputs
- 2. Provides access to historical data
- Ability to set baseline to customize trending results
- 4. Ability to assign measurement tags
